Education

New Jersey City University **Jersey City, NJ**
Bachelor of Science in Computer Science
Senior GPA: 3.9/4.0 *Expected Graduation: December 2025*

Broward College **Ho Chi Minh City, Vietnam**
Associate of Science in Information Technology
GPA: 3.5/4.0 *Graduated: December 2022*

Experience

Shinhan Finance | shinhanfinance.com.vn **Ho Chi Minh City, Vietnam**
Website Developer *January 2023 - June 2023*
Website Developer Intern *October 2022 - December 2022*
● Collaborated with team members to ensure web designs aligned with brand guidelines and provided an optimal user experience.
● Developed and tested responsive, user-friendly landing pages and loan application pages.
● The landing pages attracted **400K views per day, with 2% of visitors applying for a loan**.
Technologies: HTML, CSS, and JavaScript

Technical Skills

- **Programming**: HTML, CSS, JavaScript, Python
- **Frontend:** ReactJS
- **Backend:** Nodejs (Expressjs)
- **Database**: NoSQL(MongoDB), SQL(MySQL)
- **Tools**: Git (version control), Visual Studio, Microsoft Office Application

Personal Project

Full-Stack E-Commerce Web Application
- Developed a full-stack e-commerce web app with features for browsing, searching, managing a cart, and secure checkout.
- Built a responsive front-end with React.js and TailwindCSS and a Node.js backend with MongoDB for inventory, authentication (JWT), and orders.
- Optimized performance and user experience with secure authentication, reusable components, and mobile-friendly design.
- Technologies: HTML, TailwindCSS, JavaScript, React.js, Node.js, MongoDB.

Front-End Doctor Appointment Booking Web Application
- Developed a responsive, user-friendly doctor appointment booking web application using React.js.
- Designed an intuitive UI that allows users to browse available doctors, select appointment slots, and book consultations.
- Ensured a mobile-friendly and accessible design with reusable components for efficiency.
- Technologies: HTML, CSS, JavaScript, React.js.
